

**Jelena Lukić**, was born on April 28 in Belgrade in 1970. She is PhD in Chemical Engineering, being employed in Electrical Engineering Institute Nikola Tesla since 1996. She is head of the Laboratory for Insulating Oil and Paper Testing, Department of Electrical Measurements. Her main fields of expertise are oil analysis, diagnostics, degradation phenomena of paper/oil insulation, corrosion phenomena induced by corrosive sulphur and oil treatment processes used for removal of oil ageing products, PCB and corrosive sulphur compounds. She is the author of 40 articles, 19 published at international conferences, three of them published in leading scientific papers.

Jelena Lukić is Serbian National Committee representative in IEC TC 10, and co-liaison of IEC TC 10 in CIGRE SC A2. She is engaged in various IEC TC 10 working groups and CIGRE SC A2 and D1 working groups (currently in: WG A2.40, WG A2.45, WG A2/D1.46, WG A2/D1 47, AG.D1.01). Jelena Lukić is convenor of CIGRE WG A2.40: “Copper sulphide long-term Mitigation and Risk Assessment”.
