

Steve Harpham

Steve has been associated with the Doble Engineering Company for over 30 years including 18 years as Doble Representative for the UK and Ireland. He also operated the Doble European Service Centre in the UK from 1995 to 2009.

He has been directly employed by Doble for over 6 years and currently works for the Europe, Middle East and North Africa office as a Technical Application Engineer specializing in off-line test and on-line diagnostics for transformers.
